This permit to change the point of diversion, place of use and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 53922, which changed the point of diversion of water heretofore appropriated under claim of vested right as evidenced by Proof of Appropriation of Water 04883, is issued with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. The total combined duty of water under Permits 64239, 64240, and 64241 shall not exceed 40.0 acre-feet annually.
